PER CURIAM

**ORDER**

Mary Lou Watson appeals from the trial court's final judgment approving class settlement and denying Watson's motions to dismiss and to decertify the class. We have reviewed the briefs of the parties and the record on appeal and find no error of law. No jurisprudential purpose would be served by a written opinion. However, the parties have been furnished with a memorandum, for their information only, setting forth the facts and reasons for this order.

The trial court's order is affirmed pursuant to Rule 84.16(b).
